we at Zambian Breweries joined the nation in Kuja, which we launched in the fourth quarter of 2022. celebrating emergence from the pandemic in 2022 of Zambia's economy.

We have again seen the resilience of our product offering, demonstrated by strong consumer demand throughout the year. We are positive that our strong portfolio of brands and packs will continue to meet our diverse consumer needs and we will indeed continue to evolve along with our consumers as we continue to lead and grow the category.

I am pleased to say that we are now going ahead with the milestone US\$80 million capital expenditure strategy that will help meet market demand through the doubling of capacity at our Lusaka plant.

The expansion is expected to be complete by the end of 2023.

This committment lies at the heart of our strategy of investing for the long-term strengthening of our business.

As we continue the journey to digitise and monetise

After a challenging two years of COVID-19 restrictions, using our proprietary distributor management system,

with a renewed sense of optimism about the growth This will lay the foundation for further digital expansion of online ordering through our customised application at a later stage.

> To this purpose, we have created a sales and distribution subsidiary which gives us greater flexibility to expand our product offering to customers, and ultimately serve them better.

Financial Performance

Despite some supply challenges, beer volumes in 2022 grew by high single digits compared with 2021.

Net revenue grew by 19.7% compared with the previous year, driven by both price and mix, with a healthy increase in margins, resulting in an operating profit for the year of ZMW294 million, which was an increase of 55% on our 2021 performance.

Higher margin imports, particularly cans, gave net revenue a further boost, although the core local brands continued to see strong demand and thus dominated the sales mix. We also saw strong growth from our our ecosystem, we will expand the base of distributors brands in the Flavoured Alcoholic Beverage category

and have added to our portfolio with the launch of Brutal Fruit Ruby Apple Spritzer in November.

On the cost side, the average prices of electricity and fuel, coupled with fuel price volatility, impacted direct costs, with the reinstatement of VAT on petroleum products making it harder to plan for logistics costs. Overall, variable production and marketing costs remained in line with revenue increases.

We paid ZMW1,162 million in excise tax to the Government, up 15% compared with 2021 due to overall volume and price growth as well as the increase in premium and core brand sales.

Operating profit for the period under review was 55% higher than the prior year, driven by volume growth, positive margins and overall better controlled variable

Investment for the Future

We announced our US\$80 million capacity expansion plans in 2022. This project is expected to double the capacity of our plant in Mungwi Road, Lusaka, following completion towards the end of 2023. It will also enable us to make cassava-based products in Lusaka that are currently only produced in Ndola.

2023 Outlook

We are optimistic about the future. We will at the same time need to remain disciplined in managing our costs as we continue to see commodity and energy price volatility.

We remain committed to our transformation journey in 2023, to ensure we get even closer to our customers and consumers and remain focused on meeting their

Local sourcing and value addition within Zambia are also continued priorities. Our capacity expansion plans herald an exciting new chapter for our production capacity and capabilities, as we continue investing to create a future with more cheers. This means we are always looking for ways to move our industry forward, make a meaningful impact in our communities, and remain committed to building a future that everyone can celebrate, and everyone can share in.
